

A bedroom interior featuring a large, light-colored wall mural of tropical plants, including banana leaves and a central flower cluster. In the foreground, a bed is made with a yellow patterned duvet and a red blanket. Several pillows are arranged on the bed: two light pink rectangular pillows, a yellow textured pillow, a red fringed pillow, and a red cylindrical bolster. A small, glowing candle in a brass holder sits on a dark surface to the left of the bed.

WALLS

Grafico has been helping you create amazing spaces for over 15 years!

We are a dedicated team who live and breathe all facets of design and custom print wall coverings.

We are proud to present you this 'inspo' book which has been designed and curated by myself and our team.

Whether you are looking at purchasing from our popular online shop, or working directly with our in-house design team, we are pumped and primed to transform your space and bring your dreams to reality creating amazing WOW factor on your walls.

We welcome the opportunity to discuss your requirements or shop online now to get your project started!

Remember its #morethanjustawall with Grafico-Walls.

Kind Regards,

Damian Corney
Founder & Creative Director

WALLPAPER OUTDOORS? ... YES!

Grafico can even produce 'outdoor wallpaper' to bring outdoor spaces to life. The specially developed product is vinyl not paper based and over-laminated to ensure the print is hard-wearing and scratch and fade resistant.

Our HP latex print technology uses inks specially developed for outdoor use ensuring the print stays looking amazing in years to come even in Australia's harsh conditions.

- Outdoor rated film
- Laminated for outdoor durability
- Can be applied to smooth painted substrates like Alucobond/Colorbond
 - A great way to beautify smooth garage doors
 - Protects the substrate underneath
- Anti-graffiti coatings available. **STOP TAGGING!**

SAIL TRACK BANNERS

A GREAT LARGE SCALE INDOOR or OUTDOOR SOLUTION!

Sail track banners are a great way to transform your walls when wallpaper is not suitable. Eg. Brick/concrete walls.

Sail track banners are essentially a large stretched banner held secure with an aluminium extruded edge which is drilled around the perimeter of the banner.

Sail track banners can be installed to most solid walls such as brick/timber etc and produced in one single piece with no joins so they're perfect for large scale wall areas such as garages, warehouses & showrooms.
